The People Have the Right to Know the Truth

LET THE MILITARY MEN SPEAK

Free the Military to Speak and Act - - - The Hollow Men Have Misled This Nation Too Long

TIME TO LISTEN TO THE MILITARY MEN

The crisis which besets the world today is primarily a military crisis, not an ideological crisis. We have been steeped for so long in the propaganda of "Class War" that its myths are all-pervasive. It is time to face the fact that the "Class War" is a phoney. There is no Class War. There has never been any Class War. There will never be any Class War. Instead, there is a "Class War Myth" which the Culture - Distorters have used for thoroughly ulterior purposes.

The "Class War Myth" was worn out in Europe before it ever got a good head of steam in the U.S.A. In Germany, between the Years 1880 and 1914, politics were polarized between "Right" and "Left," just as they are in the U.S.A. today. The Middle Class constantly expressed its horror over the "Godless Proletariat." Gasbags made endless speeches praising "Private Enterprise." Society was divided and weakened by Class hatreds. By the middle 1920's, Germany was beginning to be cynical about this game. Oswald Spengler had pointed out that "Proletarian" movements always do the work of the Big Money, and that political parties exist primarily for the purpose of receiving subsidies, and doing the work of the people who pay the subsidies. Since even the Marxist parties were subsidized by the bankers, they talked a good game of "Proletarian Revolution," but when the chips were down, they did the bidding of the bankers. Later, V. I. Lenin told who really ran the Communist Party. He said, "There could have been no socialism without the help of the great banks."

Communism is not the product of the Proletariat. It is the work of a ruling class which seeks to rule by the manipulation of public opinion between "Right" and "Left." Europe had already worn out this system and had become utterly disgusted with it before it was adopted in the United States in 1933. Jews are the chief proponents of such a system. Jewish intellectuals are the chief authors of the intellectual charlatanry involved in such a matter. The Jews tell you that they can dominate you by the superiority of their "Ideas," and their 'Propaganda." This is the system they have used: They have led you to believe that "The Masses" of the Earth are engaged in a "Revolution" based upon the ideas of Karl Marx. You should, of course, be able to see the evidence in front of your nose. You should be able to see that no such thing is really going on. The Jews baited this hook well for you, though. They knew your class-vanities, your selfishness, your cheapjack snobbery. The philosophy they invented for you pleases you. It gives you an excuse to hate the poor. It makes you feel superior. In fact, it is a way of giving away everything you have to the Jews, abdicating your political power, and giving the Culture-Distorters control of the mass media. You don't see this until too late. The Jews knew you wouldn't. Stupid Goy! What made you think you could cope with the Jews?

WILL THE AMERICAN FLAG BE REPLACED BY THE U.N. RAG? AND THE EAGLE BY THE BEAR?

"Eagle of the Sun, to Thee 'Tis Given to Guard the Banner of the Free?"
—Joseph Rodman Drake

You Are Deceived

You didn't cope successfully with them. They deceived you successfully. They licked you in the struggle for domestic political power. They took your country away from you. They educated the poor to 'Think Jewish" and to reject the leadership of the rich Gentiles, who have not demonstrated much real political talent in recent years anyway. The Jews have the country by the tail on a downhill pull.

By rights, we ought to be entering now the Jewish Messianic World State. There should be no disorder in the world, but only the smooth, orderly exercise of Jewish Power.

"Americans will wake up some fine day and the USSR will have the nuclear monopoly. The U.S. will have the bombs and warheads which the military cannot deliver (because of Russia's ABM defense) and the enemy will have the bombs and warheads which our military cannot stop."

GENERAL NATHAN F. TWINING

"The Johnson bombing of North Vietnam is simply a phony."

GENERAL THOMAS A. LANE

"If we had defeated them in Korea, we would not be in the predicament we're in now."

THE HOLLOW MEN

My neighbors are nice people. They are honest. They pay their bills. They have nice manners. I do not wish to pick any quarrels with them. Nevertheless, they become a pain in the neck every time an election rolls around. They are always running to my house touting the merits of this or that alleged "Conservative" candidate who is standing for election. Perhaps I am a bit too crusty, but my standards for a "Conservative" candidate are very rigid indeed. I do not take seriously most of the much-touted saviors of our country who appear on the tickets of the major parties. It seems to me that we have been deprived of the franchise, and that most of our elections are hollow mockeries which offer neither a choice nor an echo. Usually there is a "Conservative" candidate and a "Liberal" candidate. The puppet-strings attached to both of them lead straight into the same Board Rooms of the same banks in New York.

Many long years ago, when "Ike" first ran for President, many of my good friends and neighbors voted for him. They were bemused by the words "REPUBLICAN PARTY" and they thought that if only they could elect "Ike" they would be wafted gently back to the good old days of the McKinley Administration. On the day that election was held, I went fishing on the ocean. I caught a huge sailfish and a shark. I did not vote. "Ike" had told me all that I needed to know about him when he said: "The best thing I ever did was to listen to the advice of Bernard Baruch." Following the advice of his great and good friend Baruch was indeed good for Ike; but what good did it ever do me?

If a man wishes to be taken seriously as a Conservative candidate by me, he must stand up in front of the TV cameras and take a foursquare, unequivocal stand on the following issues . . .

ONE: Withdrawal of the United States from the United Nations. Our nation is being scuttled in order to incorporate it into a World State. I want the Conservative Candidate's clear and unequivocal promise to halt and reverse this process. This does not mean a retreat to isolationism. It means acting as a nation instead of as a pawn in the game of the International Marxist-Money Bags game.

TWO: I want to hear the Conservative Candidate come out foursquare in favor of repeal of the Federal Reserve Act. I want him to stand up in front of the TV cameras and tell the American people about the colossal heist job which is being worked on their monetary system. This would not be an unprecedented action. Even Adolf Hitler stood up in the Sports Palace in Berlin and told the truth about international monetary machinations. I never liked Adolf much, but I will have to give him his due: He told the truth about
